## ABSTRACT

The purpose of Community Service (PPM) for this Sports Sector Group is to increase the knowledge and understanding of Elementary School Physical Education Teachers in Depok District, Sleman Regency regarding the 2013 Curriculum Based Assessment Rubric Preparation Training. Thus after this training it is expected that SD Physical Education teachers can implement knowledge and Understanding the preparation of an assessment rubric based on the 2013 Curriculum. It is hoped that the knowledge and understanding obtained can be used to assess the learning outcomes of students so that the assessment of Physical Education is carried out accurately and objectively. There are three, namely: (1) lecture method, (2) question and answer method, and (3) assignment method (recitation). Providing theoretical material through lectures, question and answer, and discussion methods. The training material consists of: an introduction to the theory of tests and measurements for the evaluation of Physical Education, the relationship between tests, measurement and evaluation, the principles of the test, measurement and evaluation of Physical Education, the purpose of assessing the learning outcomes of students, compiling the Physical Education Assessment rubric, the characteristics and types of rubric assessment based on the 2013 Curriculum, as well as the rubric-based assessment criteria. The method of assigning assignments includes: the practice of compiling an assessment rubric along with its assessment criteria and a presentation on the development of an assessment rubric in accordance with the subject matter contained in the 2013 Curriculum for Physical Education for Elementary Schools. The PPM results show that even though the training is conducted online, it turns out that the enthusiasm level of Physical Education SD teachers in Depok District, Sleman Regency in participating in this PPM is very high. It can be proven that the trainees show a high level of discipline, seriousness, responsibility and commitment. Likewise, based on the observations of the PPM Team, during the theoretical and practical activities in compiling an assessment rubric based on the 2013 Curriculum, the SD Physical Education teachers did it seriously, with discipline and enthusiasm. Thus it can be concluded that the training for the Compilation of Assessment Rubric Based on the 2013 Curriculum for Primary School Physical Education and Health Teachers in Depok District, Sleman Regency, whose activity material consists of theory and practice has been running successfully without any significant obstacles.
