ABSTRACT

Margoagung Village has major potential in the tourism sector. Apart from being called a tourist village, it is also called a Cultural Village. Culture is preserved by young people through traditional music. The lack of modern musical equipment means that young people's creativity cannot develop optimally. This Community Partnership Program was carried out to provide capital to Karang Taruna to develop potential in the field of modern arts. Apart from that, providing training on good music studio management and fulfilling K3 (Work Safety and Security). PKM results show that; 1) the development of modern music arts is carried out by developing facilities and providing music training management training so that training can be carried out optimally, 2) K3 assistance carried out to prepare modern music training activities is running well. Modern music mentoring and training activities in Margoagung Village are carried out by mapping partners' skills and interests, 3) Music playing training activities are carried out with intensive training in accordance with good and organized scheduling management, 4) The level of participant satisfaction is in the very satisfied category so it can be said The PKM program is implemented effectively and well. PKM's additional output is the publication of articles in national journals, namely UMP Community Service and Empowerment, and publications in national newspapers, namely Tribun Jogja, speakers at the 5th ICERI International Seminar, as well as increasing the quality and quantity of PKM partner production
