

Leadership and Communication Skills Training for Young Athlete Trainers in DIY Province.

by Siswantoyo, dkk

ABSTRACT

Community service with the title leadership training and communication skills for young sports coaches in Yogyakarta Province aims to increase knowledge, understanding skills, for young sports coaches, especially in terms of leadership and communication skills. Leadership and communication skills. is an effort to improve the performance of the training process so that service satisfaction and the quality of athletes are increasing. Service activities are carried out using education and training methods, theory and practice on September 25 and 26 2021 online supported by training media, facilities and resource persons who are competent in their fields. After training, young sports coaches in Yogyakarta Province have experienced changes in their knowledge, understanding, and skills regarding leadership and communication skills. so that it is expected to support their performance in fostering young athletes in achieving national achievements.
