

# MENTORING TRAINING AND RESEARCH PROPOSAL WRITING CLASS ACTION (PTK) FOR PRIMARY SCHOOL TEACHER IN FORCE

by **Joko Kumoro, Suranto Aw. Muslikhah Dwihartanti**

## ABSTRACT

Educational success is determined by many things, and one of them is a teacher. To that end, the quality of teachers needs to be continuously improved in line with the quality of education. Various attempts have been made by the government to improve the quality of teachers. One of the efforts that have been made is through an increase in the ability to write scientific papers. Ability to write scientific papers is very useful for teachers for themselves as a form of self-existence, and for the sake of his duties as an educator in print quality learners. One form of scientific work that needs to be controlled by the teacher is research.

The aim of PPM: 1) Giving provision capability of doing action research Classes for elementary school teachers in the group 3 District of Panjatan; 2) Doing assistance in the preparation of a Class Action Research proposal for elementary school teachers in cluster 3 Kecamatan Panjatan; 3) Establishment of a Class Action Research proposal by primary school teachers in cluster 3 districts Panjatan.

Based on the results of the implementation of classroom action research training for teachers in the group 3 District of Kulon Progo Regency Panjatan can be concluded as follows: 1) Training class action research has been able to be implemented as planned and success indicators are set; 2) Through these training activities can be organized 4 classroom action research proposal; 3)

The suggestions can be put forward relating to this training as follows: 1) Preparation of proposals that have been made should be implemented to improve the quality of learning in the classroom; 2) Preparation of proposals should also be made of experience in order to respond to the offer of research of various sources of funding; 3) This kind of training and other training needs to be done continuously so that the ability and interest of teachers to conduct classroom action research can be increased and can improve teacher qualifications.
