

Training of Interactive Electronic Book

by Nur Hadi Waryanto, Bambang SHM, Kuswari H, Emut, Nur Insani

ABSTRACT

Reading is not a single process but rather a synthesis of various processes which then accumulates in a single act. Membaca is essentially a process that is both physical and psychological. The process in the form of a physical form of writing activity observed visually and is a mechanical process in reading. The mechanical process continues with psychological processes such as thinking activities in processing information. Psikologis process that begins when the visual senses transmit observations about writing to the center of consciousness through the nervous system.

Interactive electronic book production training is going well. Trainees enthusiastic in training and they are willing to try to take advantage of the HHW program to create electronic books become better and more interesting.

Motivation of participants also increased after they followed this training. They get new ideas such as what features you can add to the design of electronic books become more interesting and interactive. It also seems that the majority of participants felt the benefit of training to develop the ideas in making electronic books in an interactive and engaging
