

PENANGGULANGAN TERHADAP DAMPAK PENDIDIKAN JARAK JAUH DARI CYBER BULLYING DI SEKOLAH DASAR NEGERI MARGOAGUNG SEYEGAN KABUPATEN SLEMAN

by Sri Hartini, Anang Priyanto, Fathikah Fauziah Hanum, Suripno

ABSTRACT

This community service aims to carry out socialization and training to overcome the impact of Distance Learning (PJJ) from Cyberbullying at SDN Margoagung Seyegan, Sleman Regency. This community service is an activity carried out using lecture methods, question and answer, and discussion in a series of socialization activities, and training methods in the form of practice activities and practices in overcoming the impact of PJJ from Cyberbullying. Evaluation of activities is carried out by measuring how well the target group knows and understands how to provide examples of problem cases that are done in groups by describing how to overcome the impact of PJJ from cyberbullying. The results of this community service activity are increasing knowledge of school residents, especially residents of SDN Margoagung Seyegan, Sleman Regency, and parents/guardians of students about the importance of overcoming the impact of PJJ from cyberbullying. The increased knowledge and skills of SDN Margoagung Sleman school residents and parents/guardians in overcoming cyberbullying can be seen from the results of group discussions in completing case study tests.
