ABSTRACT

After some time ago achieving the PTNBH title, UNY moved quickly to accelerate the fulfillment of a world-class university. Objective: This study was carried out to observe and investigate lecturers' views on UNY's vision and mission of realizing a world-class university. Method: This research uses quantitative descriptive methods through total sampling techniques. All lecturers are involved in filling out surveys to contribute to the achievement of a World Class University (WCU). Data analysis uses descriptive statistical tests by looking at the form of distribution and percentages, followed by calculating the correlation and/or influence between variables.
