

PROTOTYPE OF MONITORING AND EVALUATION INSTITUTIONAL SYSTEM OF KEMANTREN, YOGYAKARTA CITY

by Marita Ahdiyana, Dwi Harsono, Pandhu Yuanjaya, Hardian W. Widiyanto

ABSTRACT

Externally, demands for increasing the institutional capacity of the Ministry of Manpower and Transmigration need to be balanced with the internal policies of the organization. The Yogyakarta City Government needs to develop a system for measuring institutional capacity to conduct monitoring and evaluation within the Ministry of Manpower. Monitoring and evaluation of kemantren is carried out not only for general government affairs but also for special matters. This study aims to develop a prototype of the monitoring and evaluation system for the Kemantren institution in the City of Yogyakarta based on a Decision Support System. Media development is carried out using research and development (R&D) methods. This research finds that it is necessary to make adjustments to two Regulations of the Minister of Administrative Reform and Bureaucratic Reform which assess the performance of public policies and services, namely a) Regulation of the Minister of Administrative Reform and Bureaucratic Reform of the Republic of Indonesia Number 88 of 2021 concerning Evaluation of Performance Accountability of Government Agencies and b) Regulation of the Minister of Mines Empowerment of State Apparatuses and Bureaucratic Reform of the Republic of Indonesia Number 17 of 2017 concerning Guidelines for Performance Assessment of Public Service Delivery Units. In addition, indicators of Yogyakarta special features must be included in the programs and services provided by Kemantren because existing instruments do not yet provide a complete measurement. The product of this research is a prototype of the monitoring and evaluation system for the Yogyakarta City Ministry of Manpower complete with guidelines. In addition, this research has been disseminated at the IAPA 2022 Annual International Conference and International Indonesia Conference on Interdisciplinary Studies which was published in the Scopus Q3 indexed Journal of Social and Political Sciences (JSP) and The 10th International Conference of Educational Research and Innovation (ICERI) 2022 which the proceedings are WOS indexed.
