

DEVELOPMENT OF TOLERANT CHARACTER MODULES BASED ON LOCAL WISDOM FOR ELEMENTARY TEACHERS INN GODEAN SLEMAN SUB DISTRICT

by Anwar Senen, Safitri Yosita Ratri, Fathurrohman

ABSTRACT

The objectives of this research are 1) to develop thematic teaching content especially in elementary school that focuses on the local wisdom-tolerant character 2) develops thematic learning model that accommodates the local wisdom-tolerant character in planning and implementation aspects of learning. The development of learning content is manifested in a module for teachers to be able to teach the local wisdom-tolerant character to the participants. The development of learning model of tolerant character based on local wisdom is aimed at guiding the teachers in implementing thematic learning that focuses on the tolerant character of the students based on local wisdom, especially the local wisdom of Java.

This research uses Research and Development method consisting of two stages, namely: (1) Preliminary stage that is research stage and information gathering about learning of tolerant character based on local wisdom among elementary school students, (2) planning phase of learning content of tolerant character based on wisdom local as a form of early product development. In this study, subjects were applied to Elementary School in Godean Sub-district, Sleman, in Yogyakarta Special Region. Data validity using expert judgment technique, and quantitative analysis with descriptive analysis technique.

The results showed that "Integrative Thematic Module Based on Local Wisdom of Java to Develop Tolerant Character" is feasible to be used as one of the learning resources used by teachers to carry out learning especially on IPS theme in grade five.

Kata Kunci: *teacher module, character of tolerancy, local wisdom*
