

Nonformal education RESEARCH WORKSHOP IN IMPROVING TUTORS ACADEMIC COMPETENCE IN DIY

by Puji Yanti Fauziah

ABSTRACT

In Community Service Program (PPM) conducted aims to improve knowledge and understanding of the officials learned about the ability of academics researching.

PPM implementation was preceded by coordination coordinator DIY officials learned about the activities to be carried out, extended an invitation to the tutors who will be trainees, conduct training, and create reports on the implementation of the activities. Material presented at the training include: 1) the concept and importance of research for tutors, 2) create a design study in the PNF action, 3) Monitoring and Control program PNF. Trainees as many as 25 officials learned DIY. The training activities with the provision of material in the form of lectures, discussions, and question and answer.

The results of these activities indicate that the research training activities of non-formal education can improve academic skills tutors. In connection with the task of the Civil Service, the training is expected to give a general idea of ??how the non-formal education action research can be done for the development of non-formal education programs.
