ABSTRACT

ABSTRACT

Discipline issues for the community in Indonesia is still one thing that needs attention. Discipline becomes the key to one's success. If society shows the lack of discipline attitude, it can be concluded that education in the community also still not succeeded in forming the character in the students themselves. The number of students who fail to learn is one form of lack of discipline in the student self attitude. Not to mention the problem of discipline in school and students in managing the time, still need attention by all parties. Thus the problem of character, especially discipline is an urgent matter of urgency to immediately find a solution strategy.

The training was conducted with several activities. The first activity is the dissemination of information about character education, character education camp and teacher follow-up plan in shaping the character of discipline. With speakers for each material PPM team from Prodi S2 PIPS PPs UNY. The second activity is the practice of developing a follow-up plan to establish the character of discipline.

Community service activities generally run in accordance with the purpose of the activity and run smoothly. Participation of IPS teachers who joined in MGMP enthusiasm in following the activity. Many questions are conveyed by teachers. The practice of developing a follow-up plan to establish discipline shows seriously. The hope of the teachers who attend the training can transmit knowledge from the socialization in SMP N 1 Banguntapan Bantul.
