

TRAINING ON DEVELOPING PROPOSAL AND IMPLEMENTING ACTION RESEARCH FOR VOCATIONAL SCHOOL TEACHERS IN BANTUL REGENCY, YOGYAKARTA

by Dr. Slamet Suyanto, M. Ed., Prof. Dr. Djukri, MS., Atik Kurniawati, M.Pd.

ABSTRACT

This public service program is to train biology teachers of vocational schools in Bantul Regency, Yogyakarta. According to the decree of teacher and lecturer number 14 year 2005 notify that teacher must have academic qualification, competencies, teaching certificate, and healthy state physically and mentally. There four main competencies of teachers required, namely pedagogical, professional, psychological, and social competences. Among the professional competences is the competence of planning and doing a research, specifically Classroom Action Research (CAR). As many as 22 science teachers have no experience in planning and implementing action research. They ask for training on CAR. The 2-week training was conducted in theoretical and practical. As many as 16 proposals of CAR were developed, presented, reviewed and ready to be implemented.
