Abstract

Community Service Activities (PPM) There are three series of workshops held, namely the PAUD curriculum surgical workshop and scientific learning; gamelan art learning assessment workshop. The target subjects of PPM are PAUD teachers, and youth youths in Sokoliman, Bejiharjo, Karangmojo, Gunungkidul. Teacher skills in playing gamelan are still lacking because there is no musical training and gamelan. After a gamelan and musical workshop, it can be seen that PAUD teachers in Karangmojo Cluster VI have the potential to preserve musical instruments. The wayang uwong staging aims to provide activities to culture-based youth organizations, as well as to establish cooperation between Sokoliman youth organizations and Yogyakarta State University.
