

TRAINING OF TEST MATERIAL DEVELOPMENT OF COMPETENCY TEST AND SIMULATION OF ENGLISH COMPETENCY TEST FOR LSP OTOMOTIF INDONESIA ASSESSOR

by Muhkamad Wakid, Nirmala Adhi Yoga P, Prihatno Kusdiyarto, Amir Fatah

ABSTRACT

ABSTRACT

This PPM activity aims to: 1) organize writing training "Competency Test Materials" in English, to improve the competence of written communication in English for LSP OTOINA board and assessors; 2) conducting training and simulation of competency test in English to improve the competence of oral communication in English for LSP OTOINA board and assessors. The goal of this program is the OTO-INA LSP Assessor and Managers. The activity method used is the method of training or workshop, role-play and long-distance assistance.

The results of this PPM activity are 1) the compilation of competency test materials LSP Otolna in English; 2) implementation of simulation of competency test process in English. This PPM activity runs smoothly with good results. There is a need for further activities to translate competency test material to other schemes into English so that all competency test materials from the existing scheme can be presented in English. In addition, English language training needs to be followed up by individual trainees so that their ability to conduct certification assessment of competency test in English can be better
