## **ABSTRACT**

The community service is in the form of training with the aim of providing kindergarten teachers' knowledge, experiences, skills and assistance so they can develop their competencies in terms of learning and their evaluation tools. The subjects of the training were 34 kindergarten teachers representing Aisyiyah Kindergarten in Banyuwangi Regency. Training uses the principle of participatory dialogue. The material provided were the importance of character education for early childhood, local wisdom as a source and medium of learning, strengthening character education for early childhood, and evaluation of early childhood character education. The training methods were: 1) lecture with variety, 2) discussion, 3) problem solving, 4) assignments, 5) educational games. The conclusion of this PPM activity is the training to integrate the values ??of local wisdom in learning to strengthen character education and its evaluation in 'Aisyiyah kindergarten in Banyuwangi has been successful. The training process has succeeded in increasing teachers' knowledge, and skills in strengthening character education based on local wisdom along with their skills in making assessment instruments.
