ABSTRACT

This study discusses the development of a prophetic political education model based on Islamic values ??at Baitussalam Terpadu Islamic Junior High School Yogyakarta. The purpose of this study was to obtain information about the implementation of political education at Baitussalam Terpadu Islamic Junior High School and to find out the concept of a prophetic political education model developed at Baitussalam Terpadu Islamic Junior High School. This research method uses research and development methods with research subjects consisting of PPKn teachers and eighth-grade students of Integrated Islamic Junior High School. Determination of the subject is based on consideration of the capacity and knowledge of the subject that a person has to provide information and data collected by the researcher. The research stages follow the 4 D model; development, defining stage (define), planning stage (design) stage of development (develop) stage of dissemination (disseminate). The results of the study found that the political education process carried out at the Integrated Islamic Junior High School was carried out based on Islamic values. The development of prophetic political education is carried out by compiling teaching materials, learning syllabi, and learning program plans.
