

TRAINING ON THE PREPARATION OF ENGLISH TEACHING MATERIALS FOR HIGH SCHOOL TEACHERS IN MAGELANG

by Siti Sudartini, Sugirin, Siwi Karmadi K, Indah Permatasari

ABSTRACT

This training activity aims to: 1) provide additional knowledge to high school English teachers who teach in Magelang district related to the techniques of preparing good English teaching materials; and 2) improve the teaching competence of English teachers in high school in Magelang district in preparing English teaching materials.

The method of activity implementation is generally divided into two main activities, namely: 1) lectures and discussions, which are the stages of delivering basic materials related to English teaching material development techniques; and 2) practice of developing teaching materials. This activity is planned to involve 35 participants consisting of English teachers who teach in the Magekang Regency area and are members of the MGMP of High School English in Magelang Regency, Central Java. The results of this activity are as follows. First, the participants were able to identify techniques for preparing good English teaching materials. Second, most participants were able to develop good teaching materials according to the Course Grid design made at the beginning of the training. At the end of the training, 15 sets of good quality English teaching materials were collected.
