ABSTRACT

The internet has made it possible for anyone to easily obtain and be a source of information. However not all parties are able to make the most of this technology. Though these potentials can be useful if they can be utilized, one of which is for the development of village communities. This community service program aims to improve the village web as a means of disseminating information and increasing public participation. The results of PPM are structuring village websites and increasing traffic to the Pare Wonogiri website.
