G-SUITE FOR EDUCATION INTEGRATED MULTIMEDIA TRAINING IN SUPPORTING ONLINE LEARNING IN THE MIDDLE OF COVID-19 PANDEMIC

by Ali Mustadi, Octavian Muning Sayekti, Tika Aprilia, Amalia Rizki Ardiansyah

ABSTRACT

This training aims to improve knowledge and skills in making interactive multimedia integrated g-suite for education in supporting online learning in the midst of the Covid-19 epidemic. The training is carried out in two stages. The first stage is a basic study of multimedia development theory. This stage contains a seminar on interactive multimedia integrated with the g-suite for education. While the second stage is a workshop and media presentations by participants. This stage contains the process of making interactive multimedia integrated g-suite for education by participants, then product presentations by participants. The results of this training indicate an increase in the knowledge and skills of participants in making interactive multimedia integrated g-suite for education. Knowledge of instructional media, according to the results of pre-test and post-test data analysis, increased by 20.33%. Performance results also show an increase in skills in the manufacture and use of multimedia. The results of the interview data analysis also revealed that the need for multimedia learning was easily fulfilled because the participants had mastered the concepts and techniques for making interactive multimedia integrated with the g-suite for education which were more adequate.
