by Pratiwi Wahyu Widiarti, Iffah Nurhayati, Puji Wulandari

ABSTRACT

The purpose of the community service activities are a) improving the knowledge, understanding and appreciation of the development of children in terms of physical, psychological, social and moral (Early Child) and solutions to problems that arise; Parenting style, context and Family Resilience; b) improve the knowledge, understanding and appreciation of the Rights of the Child, Welfare and Protection of Children (NAC); c) improving the knowledge, understanding and appreciation of the Family and technology in the elderly older people in society hamlet Cupuwatu II, Purwomartani, Kalasan, Sleman regency.

This community service activities performed by lectures, question and answer, discussion and problem solving perkasus. The target community service is the old man at the village community Cupuwatu II, Purwomartani, Kalasan, Sleman number of 30 participants. Community service implementation is on Saturday, August 23, 2014, in Hall RW II, Cupuwatu II. Purwomartani, Kalasan Sleman. Activity in the first session is filled with the provision of material on general child development and parenting styles on children, and the protection and welfare of children as well as children and families with the technology. The material is delivered with a lecture and question and answer. Activity second session filled with training by giving cases to the participants for discussion, so that the participants have the ability to solve problems relating to the development of effective parenting. The second material is delivered with the method of discussion and problem solving.

This service activities can be said to be performing well and smoothly, but there are still some limitations in practice. Parents as trainee enthusiastic and excited in participating in the sessions exist, either material exposure activities, debriefing and discussion. In addition, from the results of the exposure and discussion of participants on simulated cases showed no increase in the level of knowledge and understanding of the participants on this matter.

Kata Kunci: developing effective parenting, parenting style, child protection, family and technology.
