

# **WRITING TRAINING SCIENTIFIC JOURNAL FOR CIVIC EDUCATION TEACHERS (PKN) JUNIOR HIGH SCHOOL (SMP/MTs) IN MAGELANG DISTRICT**

**by Mukhamad Murdiono, Suharno, Sunarso, Samsuri**

## **ABSTRACT**

Ability to write scientific papers was an important part that must be developed by Civic Education teacher. Teachers should not only be present in the classroom to teach, but also should seek to identify learning problems. Identification of learning problems encountered in the classroom can be developed to do action research in order to improve the quality of learning. The results of this classroom action research can be developed into a scientific article that can be inserted into a scientific journal. Through writing scientific articles based on research, teachers can develop the ability professionalism education and research, especially research of class action. It is therefore necessary to hold training writing scientific papers to journals for Civics teachers. Methods community service activities is done by lectures, question and answer, discussion, practice and evaluation. The target audience were Civics teachers who are members of MGMP Civics. Invitations were distributed to teachers and 32 participants. Results for the target audiences are increasing awareness and knowledge of teachers about writing scientific articles for journals. Through lectures and discussions, teachers are already familiar with the steps or strategies development framework writing scientific articles for journals. Additionally, through a community service program can be established cooperation and good relations between UNY, in particular Pancasila and Citizenship Education Graduate Program, State University of Yogyakarta, with institutions outside UNY is MGMP PKN in Magelang district. From the results obtained in the activities suggested there are some things that need to do better planning before the program is implemented and dedication to community service activities need to be implemented advanced training writing scientific articles for journals.
