

TRAINING OF ATSTRUMENT INSTRUMENT DEVELOPMENT AND SKILL OF TEACHERS OF SMA HISTORY SE DISTRICT BANTUL

by Dr. Aman, M.Pd.

ABSTRACT

Community service is an alternative solution in developing a quality assessment system at the school level. Community service activities aim to provide knowledge and improve the skills of teachers in developing and developing the instrument of assessment of learning. Specifically this activity aims to improve the knowledge and concepts of learning assessment, and train teachers to understand the importance of assessment of learning and the effectiveness and efficiency of an assessment instrument. Methods used in community service activities include lecture or training activities that contain the delivery of information for general and theoretical material, in this case is the conception of evaluation, the concept of assessment, measurement, objectives and function of assessment, the principles of assessment of learning, assessment models, assessment instruments, and the effectiveness and efficiency of the assessment of learning. Giving materials around the latest learning assessment is expected to improve teachers' understanding of judgment, ways of developing instruments, and ultimately contribute to improving the quality of learning in schools.

This activity will be attended by 35 history teachers of Bantul Regency. Training to be carried out training 2 (face to face) minimum for 20 hours (3 days). Evaluation of the training process that is, evaluation during training implementation includes, involvement and ability of participants at each stage of the training. In the final stage, the participants are expected to perform technical activities in the preparation of authentic assessment instruments. Post-Training Evaluation is the success of community service activities will be evaluated based on the level of completion of training materials, and the team will provide Instrument criteria assessment of the usefulness of this training activity is revealed with the instruments that have been prepared
