## **ABSTRACT**

**"TRAINING OF AUTHENTIC ASSESSMENT IN LEARNING BASIC SCHOOL STUDENTS IN PURWOREJO REGENCY"  
ABSTRACT**

Authentic assessment training in elementary school gymnastics learning in Purworejo Regency is motivated by the need for a unification of concepts about authentic assessment in physical education learning for gymnastics material. To obtain this knowledge and skills, there is a need for training for teachers in the Magelang District Education Office. The service team wants to play an active role in solving the problems faced by physical education teachers in Magelang district by conducting authentic assessment training in physical education learning specifically for gymnastics learning materials in elementary schools. The goal is to provide understanding and the ability to carry out authentic assessments in gymnastics.

The method used for solving problems in this service, namely by using the lecture, discussion, demonstration and practice. The target audience or training participants were 41 physical education teachers in the Kutoarjo Subdistrict, Purworejo Regency. Participants receive training materials (theory and practice), making it easier for participants to carry out authentic assessments in gymnastics.

Based on the results of the PPM implementation and the discussion it can be concluded, that the PPM Authentic assessment training in gymnastics for Physical Education teachers in Kabuoaten Purworejo runs smoothly and can achieve goals very well.
