

THE WORKSHOP IN DEVELOPING AFFECTIVE ASSESSMENT INSTRUMENT FOR MUHAMMADIYAH ELEMENTARY SCHOOL TEACHER IN YOGYAKARTA

by St. Nurbaya, Dwi Hanti Rahayu, Beniati Lestyarini

ABSTRACT

This service program aims to train elementary school teachers in developing affective assessment instrument. The reason of this program is the problems and hindrances that being addressed by teacher in comprehending the affective scale components and also in arranging the rubrics. The participants involved 39 Muhammadiyah teachers of elementary school in Yogyakarta. This program is being held in the Meeting Room of Genduk Wulan Restaurant, Seyegan, Sleman during three days (20, 21, 22 August 2017) with the total of 32 hours. The result of this program is the affective assesment instruments which is validated by the experts and then presented in the session of the program. The prototipes of the product are affective and attitude assessment instruments by observation. The teacher's antusiasim in following all the sessions and good collaboration with the team has brought the success of the program.
