

TRAINING OF STUDENT SKILL ASSESSMENT INSTRUMENTS FOR TEACHERS IN SMA N 2 BANGUNTAPAN BANTUL

by Dr. Ayu Niza Machfauziya

ABSTRACT

This community service activity aims to motivate teachers in implementing the development of student skills assessment instruments, improve understanding, ability, and practice technically about the implementation of developing student skills assessment instruments which include: (1) Motivating (building willingness) to improve understanding and competence in implementing development student skills assessment instruments, (2) understanding and competence of teachers in exploring the real and problematic problems in classroom learning, understanding and competency of teachers in developing designs, models and instruments for developing student skills assessment instruments, (3) improving skills in implementing instrument development assessment of student skills. The target of this activity is teachers at Banguntapan 2 High School who have the willingness and ability to be trained in developing student skills assessment instruments. The selection and determination of the target of this training has rational-strategic considerations, efforts to improve the quality of teachers regarding the development of student skills assessment instruments through this Training and taken by 25 teachers, training will be held 2 days or at least 16 hours of meetings

The method used in community service activities was conducted counseling / upgrading filled with lectures, question and answer, example cases, simulations. The teacher was asked to find the most important cases related to the development of student skills assessment instruments. Then asked to explore the individual problems faced in the implementation process of developing the most urgent student skills assessment instruments.

Implementation of school action research training activities that are held for two days on Thursday and Friday August 9 and 10 2018 take place smoothly and satisfactorily. In general, all participants participated in activities with high motivation and earnest. This is evident in their regular attendance for two days and following each session with great attention and enthusiasm. The first day of the training activities was filled with lectures and questions and answers about concepts and motivation in the training activities for developing student skills assessment instruments for teachers in Banguntapan Bantul 2 High School. The second day of the activity took the form of training in improving skills in carrying out the development of student skills assessment instruments for teachers in Banguntapan Bantul 2 High School. The skills in question include: exploring the real and problematic problems in teacher competency in designing designs, models and instruments for assessing student skills, improving skills in implementing the development of instruments made by participants. Guidance and consultation are served by the community service team. On the second day the participants collected the instruments for assessing students' skills
