## **ABSTRACT**

The program was aimed to: (1) Implementing a competency improvement program for motorcycle maintenance and repair training for the Karangtaruna community in Kapanewon Pengasih, Kulonprogo. (2) Knowing the results of the motorcycle maintenance and repair skills training for the Karangtaruna community in Kapanewon Pengasih, Kulonprogo. The target audience for this training was the Karangtaruna community in the work group of the Kapanewon Pengasih Kulonprogo Youth Information and Counseling Center in the school and community lines. The training program was carried out by direct training methods in theory and practical training.

Based on the training program that has been carried out, it can be concluded that (1) The training activities for motorcycle maintenance and repair for the Kapanewon Pengasih Kulonprogo Karangtaruna group went well, followed by youth participants. Training activities are carried out through theoretical training and practical maintenance and repair of motorbikes. (2) The result of the motorcycle maintenance and repair training activity is the achievement of the competence of youth groups in the Kapanewon Pengasih area in terms of maintenance and repair of motorbikes as well as the motivation of teenagers to learn more
