

TRAINING ON IMPLEMENTATION OF GROUP BASED INNOVATIVE LEARNING MODELS TO ENHANCE STUDENT'S COOPERATION SKILL FOR ELEMENTARY SCHOOL TEACHERS AT WIROSARI, GROBOGAN DISTRICT.

by Christina Ismaniati, Sungkono, Dian Wahyuningsih.

ABSTRACT

The purpose of this training on on implementation of group based innovative learning models is to enhance teacher's understanding and skills in implementing of these learning models at Wirosari, Grobogan district, Central Java. The training was conducted on August 2017 for two days and attended by 25 teachers of Primary School. The method or strategies used ini this training were lecture, demonstration, simulation, and drill & practice. Before doing practice in implementing the models trained, trainees were attending all materials and demonstration presented by trainers and then, after discussion about that materials presented, trainees were designing a plan (RPP) for their instruction. The result indicate that after attending that training, the teacher's understanding and motivation, and skill in implementing of the innovative learning models trained were increased. Hopefully, techers ckill have a lot of impact on student's cooperation skills.
