ABSTRACT

The implementation of community service about batik craft training for PKK Malang Village women, Caturharjo aims to introduce, add insight, and provide the ability for PKK mothers in the practice of making batik. Hopefully this skill can be used as an economic activity and can increase income family. The result is a batik work and batik skills.

The method of implementing this service is direct presentation, demonstration, and practice accompanied by the team during the implementation of the work.

The results achieved in the form of batik craft products the size of the fabric (125cm x 250 cm). The enthusiasm and enthusiasm of the participants in participating in the event was a result that was quite encouraging for the PPM Team, and it became an illustration that this activity was quite successful and would develop in the Village.
