ABSTRACT

For Indonesia, Mohammad Hatta name is not an alien. Aside from being a proclaimer, he is also famous as a scholar and movement leaders. So many Hatta donations on the existence of the nation of Indonesia. Especially in his thought, a lot of things learned from Hatta, for example, starting from the concept of the state, the economy, society, philosophy, struggle, education, and so forth. Specialized in this study emphasized the concept of Hatta education. Therefore, this study aims to determine the intellectual genealogy Mohammad Hatta and Knowing the concept of educational thought Mohammad Hatta.

This type of study is a qualitative research that takes material object library to find the style and the ideas of Mohammad Hatta. This research object is thought or ideas Mohammad Hatta contained in a number of his compositions (books), article, or the result of other people's writing about him have been published. Data was collected by means of literature search sources. Once the data is obtained from several sources available, perform the analysis, classified, sought to do, and then inferred based on the arguments of logic and theoretical constructs.

The results of this study indicate that the concept of education Hatta basically can not be separated from the premise that depart from the blend of Islamic socialism, Marx socialism and collectivism native Indonesia. In this context, the ideas of Hatta seemed to be moderate. That is, wherever the origin of that idea, which is considered to be synced it will be taken for the good. Herb that is what eventually led to its own style of socialism Indonesia, namely socialism which aims to establish a just and prosperous society, and a society free of poverty and misery of life. The basics are that serve to liberate the people of Indonesia Hatta from cekraman imperialism and colonialism. Only, they can not be achieved if people are not familiar with education, not intelak, and did not know what should be done in conditions tertidas and colonized. Therefore, the real action which is performed Hatta is to educate and enlighten the public through the organization PNI (Indonesian National Education).
