## **ABSTRACT**

Financial literacy is a basic need for everyone to avoid financial problems. Financial difficulties are not only a function of income alone, but can arise if there is an error in financial management (miss-management). Financial limitations can cause low self-confidence even for some people this condition can lead to splits in the family. Therefore financial literacy is something that is essential to get a prosperous and quality life. The purpose of this activity is to provide knowledge for housewives regarding the management and arrangement of family finances, especially in planning for children's education funds in the future. The activities carried out consist of training and mentoring using the lecture, discussion, and presentation methods. The training resulted in four findings. First, PPM activities can run well and smoothly and participants' assessment of the implementation of PPM is also very good. Second, the participants felt great benefits because they gained new insights and knowledge about financial literacy in financial management. Third, motivation and enthusiasm for participating in the training was very high because the responses given by the participants were very active during the training and mentoring process. Fourth, the community service participants feel happy and satisfied with this service activity and hope that similar activities can continue to be carried out in the future.
