ABSTRACT

This community service activity aims to enhance the English language skills of the residents of Kampung Emas Krpyak IX, Margoagung, Seyegan, Sleman, Special Region of Yogyakarta. The activity was attended by 37 residents of Kampung Emas. The form of the activity was English language training focusing on speaking and introducing vocabulary for promoting the golden village through social media. The community service activity consists of three stages: planning, implementation, and evaluation. In the planning stage, a need analysis was conducted to identify the needs of the residents of Kampung Emas. In the implementation stage, participants were provided with English language training, and the evaluation stage aimed to evaluate the implementation of the training using Google Forms. The results of this community service activity are that the residents of Kampung Emas can gain experience and direct practice in speaking English and using vocabulary to promote the golden village on social media.
