## **ABSTRACT**

The implementation of this activity is aimed to provide Prakerin guidance and cooperation system as revitalization effort of SMK especially in perfecting and aligning vocational education curriculum according to the competence of the graduate users (Link and Match). The PPM target audience is teachers in SMK N 1 Ngawen. This PPM activity is a training workshop that is pursued through the provision of Prakerin related materials (theory) and guidance in Prakerin document preparation. Implementation of PPM successfully implemented on Tuesday-Wednesday 25-26 July 2017 at SMKN 1 Ngawen. The workshop was attended by 25 participants consisting of teachers of Islamic Religious Education subjects, Civics Education, Indonesian, Javanese, English, BK, Sport, Cultural Arts, Entrepreneurship, Mathematics and Productive (TKJ, TB, TKR, TAB). In general there is an increased competence on prakerin insight and cooperation system by the participants. Participants are considered capable of preparing prakerin documents adjusting areas of expertise in groups and compiling a guide collectively.

*Kata Kunci: Prakerin guidance, cooperation system, revitalization of vocational education*
