

Edmodo Media Training in German Online Learning

by Sudarmaji

ABSTRACT

Community Service by the Team of the German Language Education Department FBS-UNY aims to bring German language teachers to master knowledge and skills in using online learning media. With Thus, teachers are able to improve the quality of German learning in their schools. This Community Service Activity is carried out in the form of a Workshop with duration 32 hours. The workshop is implemented in the form of digital seminars and tutorials with a focus on the use of Edmodo and Google Form. The results of Community Service activities can be seen through achievement indicators and evaluation, in which the German language teacher acquires the knowledge and skills to deep using Edmodo and Google Form. They are also able to apply the results of this activity by teaching German language skills in their schools. Participant teachers The workshop was very enthusiastic in participating in this activity, because they could discuss it with fellow colleagues for the development of training materials independently.
