

Higher-Order Thinking Skills (HOTS) oriented learning development training for elementary school teachers

by Woro Sri Hastuti, Pratiwi Pujiastuti, Vinta Angela Tiarani, Ikhlasul Ardi Nugroho, Herwin

ABSTRACT

This workshop aims to improve the ability of elementary school teachers to develop HOTS-based learning. The activity is carried out in the form of an online workshop with two parts, theory and practice. The material presented was an understanding of the importance of developing HOTS for students to improve the quality of elementary school learning, HOTS-oriented learning development strategies, HOTS-based learning methods, and HOTS-based learning assessments. Practical activities are carried out by compiling HOTS-oriented learning based on the baseline abilities of students for each elementary school. The results showed that most of the participants had the ability to develop HOTS-based learning. Based on the findings from the participants' products, one of the skills that needs to be improved is the skills to develop productive questions.
