

SOCIO-ECONOMIC IMPACTS OF HANDICRAFT INDUSTRY IN KOTAGEDE ON THE SOCIETY IN 1920-1942

by Ririn Darini, et al

ABSTRACT

Kotagede is well-known as an area where the people focus on handicraft industry. There are various kinds of handicraft industry developing in Kotagede including batik, silver, gold, iron, copper, leather, and horn handicraft. These industries are all managed by indigenous people and continue to grow rapidly so that they are able to survive in the malaise. These businessmen are able to develop the technique and workmanship of a product and apply the art elements by grounding in the past cultural heritage. This article aims to explain the development of the handicraft industry in Kotagede and its socio-economic impacts on society.
