

TRAINING FOR ELEMENTARY TEACHERS IN THE IMPLEMENTATION OF LEARNING BASED ON DIVERSE LEARNERS IN UPT SEWON BANTUL

by Safitri Yosita Ratri, Rahayu Condro Murti, Unik Ambarwati

ABSTRACT

This community service program aims to (1) provide knowledge and skills to elementary school teachers in the field of Diverse Learners and their implementation; (2) as the starting point for the implementation of the Diverse Learners-based learning model in elementary schools; and (3) implement and utilize the Diverse Learners Module developed by the Team. The activity was held at UPT Sewon Bantul with 32 elementary school teachers in Sewon sub-district of Bantul DIY.

The method used in community service activities is carried out counseling or upgrading filled with lectures, question and answer, case examples, and simulations. Teachers are asked to find the most important cases related to learning that accommodate diverse learners.

The one-day Diverse Learners training activities held on Saturday 22 July 2017 run smoothly and satisfactorily. Participants are generally highly motivated to learn about diverse learners themes that are considered new. Participants attended the high-attention and attentive attending session even during the discussion session to see the participants' participation in asking questions and sharing experiences. At the end of the activity the participants design an RPP that accommodates Diverse Learners in accordance with the new knowledge in the can through this activity.
