

DESIGNING COSTUME FOR CHILDREN'S DANCE BASED ON LOCAL WISDOM

by Trie Wahyuni, Ni Nyoman Seriati, Pramularsi Wulansari

ABSTRACT

The present study was aimed to design costume for junior high school/high school age children's dance based on local wisdom for a dance titled *Sigrak Kumandang*, which is the result of children's choreography in 2019.

Using research and development (R & D) approach, costume for junior high school/high school age children's dance based on local wisdom was designed. The data collection techniques were questionnaire, observation, interview, and documentation. The data was analyzed using descriptive qualitative technique through expert and user validation, as well as content validation of every part of the dance costume.

From the result of expert and user validation, the dance costume was tested in the field. The test and evaluation in the field found data on the acceptance of the dance costume's head, torso, arm hand, and foot parts, as well as data on the ease of use. The dance costume based on local wisdom for junior high school/high school/vocational high school is feasible for use for *Sigrak Kumandang* dance for dance material at school. The result was a design of of creative dance costume based on local wisdom.
